Education

Fanshawe College

London, ON

Interactive Media Design (Specializing in Web Development)

2020

Served as an intro into multi-media production. Taught basics of photography, videography, photo editing, graphic design, motion graphics, 3D modeling, web design and web development.

Work Experience

Devlift Media

London, ON
2020-CURRENT

Intermediate Developer (React.js)

My primary role at Devlift Media is an Intermediate Developer. The expectation of a developer is to submit clear and bug free code, build pixel perfect and responsive web components, work with backend and 3rd party API's, as well as communicate and work with teams while following best practices throughout all our work. At Devlift Media we use a stack with React.js, Typescript, and Firebase as a backend. We also use multiple UI libraries, design systems and 3rd party packages which has given me many opportunities to become familiar with documentations and 3rd party API's.

UI/UX Strategist

My secondary role at Devlift Media is UI/UX Strategy. Some of the user experience processes we include are research and analysis, mood boards, information architecture, sites mapping, user flows, wireframing, prototyping, implementing design systems and ui libraries, and usability testing.

Freelance

2019-CURRENT

As a freelancer I take on small projects that are in the scope of my abilities. Some of the jobs I have taken on were small venue photography, explainer video(s), web design and development for single page websites, custom vector graphics, simple motion graphics and general graphic designs.

Technical Skills

- Agile & DevOps
- Git
- Google Suite
- Adobe CC
- Figma
- HTML5
- JavaScript
- Typescript
- React.js
- MUI
- CSS/SASS
- CSS-in-JS
- Firebase
- RESTful API
- GraphQL
- Design Systems
- Wireframing
- Prototyping
- Responsive Design
- Graphic Design
